

Przemyslaw Pietrzak

Curriculum Vitae

*Software engineer specializing in web applications,
enthusiast of new technologies (but only if are better than
old ones). Open source and functional programming fan.*

Experience

- 01.2017 - **Software Engineer, F-Secure.**
Develop, maintenance and pay off the technological debt
- Implement new frontend logic and views
 - Overwrite development, building and deployment tools
 - Write and support selenium tests
 - Configure Jenkins scripts
- 11.2016 - **Co-founder and Product Engineer, Help Desk itepe.pl.**
Writing task management application
- Planning architecture and features
 - Implement business logic, UI and websocket communication
 - Unit and selenium testing
- 05.2016- **JavaScript Developer, ClinWork.**
12.2016 Develop, build UI and support Desk applications
- Implement business logic by reactive streams
 - Integrate client side with XMPP and websocket protocol
 - Build UI on react and redux
 - Unit and selenium testing
- 06.2015- **JavaScript Developer, UsabilityTools.**
05.2016 Develop, build UI and support Session Recording
- Tracing users actions, DOM changes
 - Present tracked actions as movie
 - Build UI on AngularJS
- 06.2015- **Junior Web Developer, IT Collectiv.**
05.2016 Building web applications
- Building web application using Python, JavaScript, PostgreSQL

Education

- 2014 - **Computer Science, Poznan University of Technology.**
Computer Science Department
- 2011 - 2014 **Power Engineering, Poznan University of Technology.**
Electrical Engineering Department

Volunteer

- 2014 - 2017 **Mentor**, *PyLadies Poland*.
Teaching beginners programmers python
- 07.2016 **Volunteer**, *Polyconf*.
Keeping conference stuff
- 2013 - 2014 **Core member**, *Web application science Club*, Poznan University of Technology.
Organize technology meetups

Skills

- Frontend Manage state of application, implementing business logic and design
- Backend Design API architecture, database schema
- Testing End to end testing, Integration testing (HTTP and XMPP), unit testing
- Methodologies Continues integration, TDD, Scrum, Git flow
- Soft Teaching, Assertiveness, Public speaking

Technologies

- JavaScript AngularJS, React, Rx, Ramda, Webpack, TypeScript, DOM
- Python Django, Flask, Tornado, PyTest
- Selenium PyTest Selenium, Protractor, Nightwatch.js
- Databases SQL, Postgres, Elastic(basic)
- Other Linux, Bash, Jenkins, Node.js CSS
- In progress Scala, AWS

Certifications

- 2017 **Scala**, *Coursera*, Ecole polytechnique.
- Functional Program Design
 - Functional Programming Principles

Languages

- English **Fluent**
- Polish **Native**

Interests

- Old movies
- Technology
- Swimming
- Blues music
